Profile

Having 5 years of experience in software development and implementation of web applications using PHP 7 and Python. Proficient in Requirement Analysis, Design, Development, Unit Testing, Migration, Support, and Deployment of web applications. Strong expertise in delivering scalable and user-centric solutions while ensuring adherence to best practices and quality standards.

Professional Experience

Senior Developer

SADHGURU AUDIT & GRC SOLUTIONS PVT LTD

Duration: December 2022 – January 2025

Technologies: PHP, CodeIgniter, MySQL, jQuery, AJAX, HTML, CSS, JavaScript, Bootstrap, reactJS

Description: A cloud-based audit software designed to help organize audits in compliance with accounting and auditing standards, saving time for users.

Responsibilities:

- Designed and developed database tables for various modules as per client requirements.
- Created web forms based on client specifications to ensure seamless user interaction.

PHP Developer

SIA EDU-TECH PRIVATE LIMITED

Duration: December 2021 – July 2022

Technologies: PHP, CodeIgniter, MySQL, jQuery, AJAX, HTML, CSS, JavaScript, Bootstrap

Description: A system for managing books online, catering to user and client needs efficiently.

Responsibilities:

- Designed and implemented database tables for essential modules.
- Developed web forms based on client-provided requirements to support user functionality.

Developer

CESTAT (Customs Excise Service Tax Appellate Tribunal)

Duration: August 2021 – September 2021

Technologies: PHP, MySQL, HTML, CSS, HTML, CSS, JavaScript, Bootstrap

Description: An application to manage tribunal-related data effectively.

Responsibilities:

- Designed and updated database tables for core modules.
- Corrected errors and optimized existing modules to ensure functionality.

Technical officer

Electronics Corporation Of India Limited

Duration: October 2019 – June 2021

Client: HWB

Technologies: PHP, MySQL, HTML, CSS, HTML, CSS, JavaScript, Bootstrap, Yii2

Description: An integrated finance and accounting software to track advances, temporary advances, and contingency payments, with features for employee financial applications and approval workflows.

Responsibilities:

Developed and maintained modules to handle various financial operations. Implemented report generation based on employee financial and transactional data.

Jr. Consultant

Electronic Voting Machines (EVM) Coordinator – 2019 Elections

Duration: March 2019 – May 2019

Technologies: Embedded Systems Tools (Symbol Loading Unit - SLU), Microsoft Excel

Description: A project focused on loading and verifying candidate serial numbers, names, and symbols in VVPAT machines for electoral processes.

Responsibilities:

- Loaded allotted serial numbers, candidate names, and symbols into VVPAT using Symbol Loading Units (SLU).
- Coordinated with Returning Officers (RO/ARO) to verify test printouts and certify ballot papers.
- Assisted in the preparation of sample ballot papers.
